(c) a control unit configured to complete associating operation of the plurality of consecutive images which have been sensed before reception of the instruction for changing the optical system condition of said image sensing lens from said optical system condition change instruction unit when the user selects to finish the image sensing operation based on a result from said selecting unit,

- (d) and configured to finish associating operation of images after a plurality of images, which have been sensed, are associated with each other upon reception of the instruction for changing the optical system condition of said image sensing lens from said optical system change instruction means after a first one of the plurality of images to be stored in said storage means in association with each other is sensed and stored,
- (e) and for controlling to stop changing of the optical system condition when the user selects to continue the image sensing operation based on a result from said selecting unit

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
